

2020 FLEET CHECKLIST

Fleet compliance on the brain? We might have just the thing to help. This year we've teamed up with FleetCheck to build our latest Fleet Safety Checklist, helping to keep your drivers safe and your fleet moving as safely and efficiently as possible. This handy list takes just 5 minutes to complete – start now and see how you measure up!

Identifying your training and screening needs is vital if you want to keep your drivers safe and reduce costs. Let's see how you fare.

DRIVER TRAINING & MANAGEMENT

Do you have a clearly defined driver on-boarding process in place?

Do you have an ongoing driver training programme in place?

Do you record incidents and penalties associated with your drivers?

Do you have a reliable way of establishing who your high-risk drivers are?

Do your drivers undertake regular medical assessments to ensure they are fit to drive?

Do your drivers know what to do if they are involved in an accident?

Do you have a digital driver ID log in solution in place?

Are all of your drivers' business journeys logged compliantly?

Are you able to track your drivers' behaviour across multiple vehicles?

Can you confidently say that this data is accurate?

If you don't have granular visibility over your drivers' behaviour, you could be compromising road safety and profitability. How are your drivers performing?

DRIVER BEHAVIOUR

Are you able to monitor driver behaviour such as harsh breaking and cornering?

Do you know if your drivers use their phone while driving?

Do your drivers complete training based on their individual behaviour and score cards?

Do you regularly test drivers' hazard perception?

Do you regularly screen drivers for drugs and alcohol?

Are you confident that your staff are adhering to company driving hours policy and take their full allocated time for breaks?

Do you regularly test drivers' eyesight?

Do your drivers understand how telematics data can be used to make their jobs safer?

Are your drivers consistently and correctly logging in using the driver ID solution?

A robust and compliant fleet management program brings a raft of benefits to your business including, efficiency, profitability and road safety. Could you be doing more?

FLEET MANAGEMENT

Are you confident that your company manages its work related road risks adequately?

Do you offer an up to date drivers handbook?

Do you have a road risk policy?

Do you have a policy in place to ensure the safety of your lone workers?

Do you offer incentives for safe driving?

Do your drivers carry out and submit regular vehicle safety inspections?

Do you ensure any defects identified are actions and recorded?

Do you have a robust audit trail that ensures that all your vehicles are regularly maintained?

Do you keep an accurate record of these inspections?

Are you keeping track of your fleet data digitally?

Do your vehicles rate 1 star or more against the DVS regulations?

Are your vehicles fitted with in-cab cameras?

Do you find your day to day job being filled with hours of wasted admin?

Can you confidently say your vehicles have never missed a MOT or service due date?

Can you confidently say that you have never missed a driver licence check renewal?

SCORE

WHAT DOES MY SCORE MEAN?

You've got strong foundations to build on. Take a look at how our customers ensure that their fleets are safe and compliant. <http://bit.do/customer-stories>

If you scored either red or orange, take a look at our featured DIRECTOR® in Detail video which talks you through 3 easy ways you can improve road safety: <http://bit.do/directorindetail>
